February 3, 2015

Joe Pugliese  
Hemophilia Alliance Foundation  
1758 Allentown Road #170  
Lansdale, PA 19446

Dear Mr. Pugliese and the Hemophilia Alliance Foundation,

The UCSF Adult Hemophilia Treatment Center would like to thank you for your generous grant funding for our 2014 Symposium: **The Intersection of Science and Bleeding Disorder** which took place on Saturday, November 1, 2014. This patient-centered educational symposium was a great success with over 60 participants attending the half-day event. Our focus for the day was to provide an educational and scientific update for patients and their families about the history of the cloning of the Factor VIII gene, a presentation on the exciting new treatment options for Hepatitis C, and a fascinating panel discussion about Women and Bleeding Disorders.

With your grant funding, we were able to provide Spanish interpretation via simultaneous translation services for 13 participants, and childcare services for a number of families who attended the event. Fortunately, we were also able to provide all participants with free parking for the event and a boxed lunch during the day's final session when Dr. Jennifer Price spoke regarding the previously mentioned Hepatitis C Treatment update.

The awarded grant of \$5,000 helped to fund about 38% of the total cost for the event. The remainder of the program was supported by the UCSF Hemophilia Treatment Center 340B program. The following is an accounting of the expenses for the event:

Spanish Interpretation	\$550
Childcare	\$450
Parking Vouchers	\$450
Speaker expenses	\$1,168
Social media expenses	\$100
Videotaping	\$546
Presentation materials	\$166
Facility expenses	\$1,570
	<hr/>
	\$5,000

Thank you again for your generous grant support. We are thrilled with the outcome of the event, including the many favorable comments we received on the program evaluation forms. We received 34 evaluations (>50% response) and an overall rating of 4.66 on a 1-5 satisfaction scale. There were numerous requests for content topics for next year's symposium, and useful tips on how to improve our outreach to the bleeding disorder community. We are proud to have established an annual event for the bleeding disorder community, and we could not have done it without your support.

Attached, please find a copy of the promotional flyer and the agenda for the day's program.

Sincerely,

Darcy Phelan  
Adult Nurse Practitioner  
UCSF Hemophilia Treatment Center
